

Web Developer

Profile/Summary

Self-motivated and detail-oriented professional possessing strong computer skills across a variety of professional settings and industries. I have been involved in technology and computer solutions over the course of my career, and have been steadily honing my skills in the area of Web Development.

My background in Computer Science has allowed me to continue building my skills in the fast developing field of Web Development. I have continually kept up-to-date with the latest technologies including, but not limited to, HTML, CSS and JavaScript / jQuery.
